

Seminar 5

week 5 (30 October - 3 November 2023)

- A. We continue the Discussion of the assignment **A2** implementation. Write on the table how deepCopy from the assignment can be implemented.
- B. Discussion about generics: wildcards, bounded wildcards, raw types. The discussion is base on the examples from generics-examples.pdf.
- C. We start the discussion about the assignment **A3** implementation (see Lab5.pdf).
